Forward

This document is a reference guide for participants and officials. Our network of sanctioned horse shows is dedicated to promoting fairness, safety, and excellence in all facets of equine sports.

We extend our deepest gratitude to all those who have contributed to the development of these guidelines. Your dedication and expertise are instrumental in shaping the future of our industry.

This document is organized in four pillars:

- The *Standards & Guidelines* pillar covers activity and conduct *outside the show ring*.
- The *Welfare & BioSecurity* pillar outlines standards for human and animal welfare, our elective drug testing program, and offers guidance on the proper allowance of therapeutic medications.
- The *Rule Enforcement & Penalties* pillar sets guidelines for penalties based on the severity of the infraction.
- *Sports Concepts* are the class and judging specifications for how the sport of showing horses is to occur *inside the ring*, grouped by breed or discipline.

Approval & Authorized Use

Equine Sports Council’s Board of Directors has approved the 2025 Rule Book version 6.2 effective **June 1, 2025** for a single licensed use by each show that subscribes to the ESC Network, collects and remits the required ESC fees per exhibitor, employs only ESC Registered Officials, and upholds the ESC Show Safety policy by adhering to the prohibited/suspended participant list.

STANDARDS & GUIDELINES

CHAPTER 1 – DEFINITIONS

DF100 - ESC Organization

Equine Sports Council is a non-member, private Alabama Corporation dedicated to the support and growth of the horse show industry by creating a network of horse shows that all use the same standardized set of rules and guidelines, and by giving back to the breeds and disciplines that support our network.

DF100.1 ESC Horse Show Network

Horse shows within ESC's network are committed to providing a competition environment that promotes good sportsmanship, fair competition, and the highest standards of horsemanship. The welfare of the horse and the safety of exhibitors are paramount. Exhibitors at ESC shows are required to sign entry forms and pay an ESC fee which constitutes a contractual agreement that these rules will be followed. Failure to do so may result in suspensions which are documented here: EquineSportsCouncil.org/info

DF100.2 Recommended Document Use

This document is developed for the shows within the ESC Network and is subject to ongoing updates and customization based on the class types offered at ESC Network horse shows. Federal or State Provincial laws, including but not limited to emergency preparedness, storm/weather evacuations, banned medication substances (including government drug testing which may differ from ESC) should always be followed. Individual Breed and Discipline Associations may have variances between one another in their rules and definitions, and those unique breed or discipline rules would apply accordingly. At ESC Governed events, the ESC Suspension list supersedes any other association or governing body, unless there is reciprocity. Show management may deny entry to any individual for any reason.

DF101 Age of Individual

Is determined by their age as of December 1 and will be maintained throughout the show year.

DF107 Amateur (non-PRO)

A person competing in ESC amateur or non-PRO classes must adhere to the following practices:

1. An amateur **MAY** accept financial compensation for judging, instruction of academy/lesson riders under the direction of a professional trainer or instructor, article or photo publications, or coaching the disabled. *(This rule may differ among various Sanctioning Organizations and acceptance of compensation may affect one's amateur status outside of the ESC affiliated network.)*
2. An amateur may **NOT** accept financial compensation for training a horse or for showing a horse at any show.
3. An amateur may **NOT** accept financial compensation for coaching/instructing any non-academy person to ride, drive or to show in-hand; including coaching/instructing riding or driving clinics and seminars. (Exception: See DF101.6a)

Show Officials must be registered with ESC and may elect to be covered by the \$6M Officials Liability Insurance. Judges must elect for coverage.

All ESC shows are required to designate, prior to the start of the show, named individuals fulfilling the roles of Show Manager, Steward and Judge. The Judge’s role cannot be interchangeable with other responsibilities. ESC Shows are required to designate a three person Show Commission that is empowered to make unanimous decisions, including disqualification and removal of exhibitors from the show grounds.

The primary Roles and Responsibilities of show personnel are as follows:

GL212 Commencement and Completion of Classes

1. In classes where horses compete collectively, a 2-minute warning is issued, and the in-gate must be closed after the last horse enters the ring or when the 2-minutes are up; whichever is the latter.

3. Copies of the courses must be given to the Judges.

SO516 Show Staff

3. An individual or entity who submits a payment to the show or facility for entry fees, stabling, shavings, feed/hay which is denied/declined; whether invalid credit card, bounced check, stop payment, etc. may be refused entry at that and other ESC shows until such time as the debt is resolved with the affected show(s).
4. The show may submit proof (notification from the bank or credit card company) of invalid payment to ESC within 30 days of notice.
5. ESC will contact the individual to attempt to resolve the issue.
6. If the debt is not paid, ESC will post the individual/entity's name on the ESC website. The affected show and other ESC affiliated shows MUST refuse entries from anyone on the ESC's Infraction list for past due debt. Once the amount past due is paid, ESC should be notified for reinstatement.

SO526 Refusing Entries of Suspended Exhibitors

Shows MUST refuse entries of exhibitors that appear on ESC's infraction list as SUSPENDED. Shows that fail to refuse suspended entries are in breach of their contractual responsibilities with ESC and risk the loss of protection provided by the ESC Network. See ESC's Infractions list of suspended individuals: <https://equinesportscouncil.org/info/>

SO527 Reasons for Suspensions

Each Show Commission has final decision making authority for refusing entries. Exhibitor Suspensions generally fall into the following categories:

1. Human or Animal Welfare Violations – Show Management may refuse entries and/or entrance to the show grounds to any individual that is at high risk to cause or that has physically or mentally harmed or caused pain and suffering to another human or animal. This includes but not limited to Violation of ESC's Drug & Medication Policy and Violation of ESC's Welfare Policy.
2. Unsportsmanlike Behavior - Show Management may reserve the right to refuse the entry of an exhibitor who has demonstrated continued unsportsmanlike behavior at a show, provided the exhibitor so excluded shall have the right to be heard on the issue by Show Management before the refusal of entry is made.
3. If an entry has previously unsettled debt.
4. In the case of an individual suspended, or otherwise not permitted by ESC.

SO528 Measurement of Height

Animals showing in classes with height restrictions must have a measurement card from an issuing association or be measured at the show. **Official Measurements from other governing organizations will be accepted.** Courtesy measurements may be taken.

SO529 Measurement Process

1. Any entry that needs to be measured should place a request with the Show Manager prior to the start of the show. Measurements may not be offered at every ESC event - availability is determined by the show management. It is the responsibility of the Owner/Agent to determine if the service will be provided.
2. Ponies must be measured annually until age 6. Ponies 6 years of age and older will be issued a permanent measurement card and need not be re-measured unless the measurement is questioned, protested or an appeal is made to be re-measured. The current measurement supersedes any previous measurements that may be on file with ESC.
3. Measurements may be taken by any two of the following officials: Show Manager, Steward/Technical Delegate, or Veterinarian. Officials must be on file as an ESC Registered official. <https://equinesportscouncil.org/officialsregistry/>

4. Show Management may require any pony to be measured. When multiple Pony Measurement cards are identified, the card with the latest effective date must be used.
5. Pony Measurement results are emailed to the Agent and the Owner and are kept on file digitally by ESC. Show Management may access the Pony Measurement Database through their ESC login.
6. Officials must use their own Pony Measurement Stick of industry standard that is rigid with an arm containing a leveling bubble.
7. Measurements must be taken on a flat or hard surface such as concrete or asphalt. Dirt or gravel surfaces may not be used.
8. Ponies may wear blinkers.
9. Ponies are subject to drug testing.
10. Ponies must stand square and may not be stretched out; their weight must be evenly distributed on all four legs. The pony's head should be lower than its withers in order to indicate the highest point of the withers.
11. Measurement arm of the stick should center over the highest point of the withers.
12. Heel measurements should be taken with a 6" ruler, measuring the height of the heel from the coronary band down to the hard surface of the ground.
13. Overall height and heel height will be recorded on the electronic measurement form. Heel height is NOT deducted from the overall height of the horse.
14. If height is being contested, take two measurements (one from the left side and one from the right side), then take the average of the two measurements as the final gross measurement.
15. Four photos will be taken of the pony (front, rear, right and left sides) and kept on file in the measurement database.

CHAPTER 6 – SHOW PROTOCOL

SP601 Judge's Decision

1. Once a class has been judged, it shall not be re-judged.
2. The Judge's decision is final once the Judge has marked his/her card and valid placements of awards have been made, there shall be no changing of the Judge's record except in the case of obvious clerical error, or in the event of post disqualification by the Show Commission or ESC.

SP602 Appropriate Attire

1. Riders, drivers and/or handlers must be appropriately attired for the class in question (See division rules), including show number. Attendants should be neatly dressed.
2. ESC encourages the use of protective headgear (ASTM-American Society for Testing and Materials)/SEI-Safety Equipment Institute) and makes no guarantees about protection of headgear. The show and ESC are not responsible for checking headgear or ensuring proper use.
3. Competitors may wear protective headgear and/or a protective vest, either body protecting or inflatable, in any division or class without penalty from the judge.
4. While warming up and in classes over fences, competitors must wear properly fastened protective headgear which meets or exceeds ASTM/SEI standards. Show Management may bar riders without protective headgear from entering the ring.

SP603 Electronic Communication Devices

The use of an Electronic Communication device is only allowed for a rider/driver with a hearing impairment who has submitted written proof to the show office from a treating medical professional. The use of this device should be to relay the communication made by the Announcer and not for consistent coaching purposes that would create an unfair competitive advantage.

SP604 Artificial Markings and Appliances

Any change of color or markings other than mane, tail or hoof is prohibited. Only clear grooming materials are allowed on the hide and hair. Materials may be used to remove stains. Any artificial appliances not listed as permitted in the respective division rules are prohibited.

SP605 Use of Whips

1. One whip per handler is permitted while showing a horse in Saddle Seat, Hunt Seat, Pleasure Driving, Fine Harness and In-Hand. Whips are not permitted in Western, Ranch, Dressage, or Reining.
2. Whips must be no longer than 6' including the snapper or lash.
3. One lunging whip is permitted only when lunging.

	EquineSportsCouncil.org 1-855-Equine1	Page: 26 of 194 Year: 2025 Version: 6.2
---	--	--

SP606 Showing Unshod Horses

A horse may not be excused from the ring if unshod, but a judge may penalize a barefoot horse in a class where horses are typically shod and way of going is affected. See breed/discipline rules for specifics on shoeing recommendations/restrictions.

SP607 Championships

1. The prize list must state how Championship classes will be offered and qualified for; whether on points (i.e. point accumulation in an in-hand division) or by holding a championship class (i.e. in performance classes). Judging specifications must follow those of the qualifying class in performance championships.
2. If an entry must withdraw from a qualifying class due to equipment failure or inability to fix a shoeing issue during the class, that entry may be eligible for the Championship provided the show has not limited the Championship to qualifying class ribbon winners.
3. Entries in an in-hand or breeding class do not qualify for a performance championship unless the show sets special criteria to include such classes.
4. Junior Breeding or In-Hand Championships are to be offered for two-year-olds and under; Senior Breeding or InHand Championships are to be offered for three-year-olds and over.
5. In Breeding Championships, the Champion and Reserve Champion may be awarded either to the first and second place horses from the qualifying class, or by other means indicated in the prize list. If the first or second place winners from a qualifying class choose not to compete for the Championship or be disqualified, the horse with the next highest placing in the qualifying class shall have the option of moving up for the Championship and Reserve only.

SP608 Division of Classes

Classes can be divided by sex of the horse or rider, age of the horse or rider and/or status of the rider (i.e. Amateur or Professional classes may be offered).

SP609 Showing Stallions

Whether stallions may be shown will be determined by the breed and/or discipline for which they are competing.

SP610 Showing Ponies

1. Ponies may not be shown as a horse in one class and a pony in another class at the same show.
2. Ponies who are shown in a class restricted to a horse (if pony classes are offered at said show) may not be shown as a pony the rest of the show year unless the pony is under new ownership.

	EquineSportsCouncil.org 1-855-Equine1	Page: 27 of 194 Year: 2025 Version: 6.2
---	--	--

SP611 Hors de Concours

Show Management may permit an exhibitor to show a horse Hors de Concours (unjudged). If a horse is shown Hors de Concours, that horse cannot be shown for a prize in the same ring on the same day. However, the rider of an Hors de Concours horse may compete in subsequent classes.

SP612 Managing the Schedule

1. From time to time, it may be necessary to change the schedule. It is incumbent on the manager to work with all affected exhibitors to negotiate such changes and to ensure those changes are posted and announced.
2. When the start of a class is delayed due to an exhibitor not being ready, or horses not showing up, a warning will be issued with two minutes time to report.
3. A class may be canceled if entries do not show up for their scheduled ride times.
4. In classes which compete collectively, officiating may not begin until the gate is closed or at the end of the two-minute call.
5. An order of go should be established in classes where horses compete individually.
6. It will be the responsibility and authority of management to determine whether to stop a performance due to inclement weather and/or emergency situation using the following guidelines:
7. Management will advise how the show will reconvene once conditions support such. Management should make every effort to communicate and work with the exhibitors on the best plan forward.
8. If the show must be delayed a day which exhibitors did not expect to show, the horse show should provide some relief to the exhibitors, if not to refund all show fees affected by the delay.
9. Refer to breed/division rules for the number of entries required to split a class.

SP613 Time Outs

Personal Time-Out

1. An exhibitor may request one time-out during a class which may last up to five minutes to make adjustments, repair broken equipment, or replace a cast shoe.
2. To request a time-out, the exhibitor should go to the center of the ring and get the attention of the Ringmaster or Judge. Only the Judge may grant the time-out.
3. When a shoe is cast, the five minutes will begin once the farrier starts to reapply the shoe. No more than 3 minutes may be spent looking for a cast shoe.
4. Two attendants may assist the exhibitor during the time out.
5. A Judge may request a time-out for an exhibitor if he/she believes one is warranted.
6. If a shoe is cast or there is an equipment malfunction in the warm-up area, prior to opening the gate for the next class, a 5 minute time-out may be allowed in the warm-up ring and charged to the competitor. The Paddock Master will time the time-out, and communicate the back number to the center ring so that it can be recorded.

7. Exhibitors who are not involved in the time out underway may make minor adjustments with the help of one attendant and not be charged with a time out.

Safety Time-Out

1. A Judge, Ringmaster or Steward, at their independent discretion, may call a Safety Time Out if there is a welfare or safety concern with a horse or exhibitor. This time out cannot be used for equipment malfunctions or loss of a shoe. It is strictly to verify the safety and welfare of the exhibitor and/or the horse, and may not exceed 5 minutes.
2. The Safety Time Out is charged to the exhibitor, but does not count against their Personal Time Out. Exhibitors may have one Safety Time Out and one Personal Time Out per class.
3. The exhibitor should come to the center of the ring if possible, and a trainer/attendant must enter the ring to verify the horse and exhibitor are capable of completing the class without risk of accident or injury.
4. A Safety Time Out should be called in a driving class when a cart strikes the wall, makes physical contact with another entry or object in the ring, or interferes with another competitor's path of motion.
5. Two attendants may assist the exhibitor during the time out.

SP614 Warm-up and Schooling Areas

Shows must provide adequate warm-up and schooling areas which include the necessary equipment for scheduled classes. Such must be properly lit if exhibitors will be utilizing these areas after sunset.

SP615 Attention-Getting Devices

Devices used to arouse attention from a horse (excluding proper use of a whip) are prohibited during warm-up and show sessions. Such devices include but are not limited to: laser/strobe lights, tape measures, firecrackers, fire extinguishers, sirens, horns and other noise making devices.

SP616 Accidents, Injuries or Fatalities

1. Horse shows should develop an Accident Preparedness Plan in concert with the facility and state and local regulations. This plan should be shared with horse show officials prior to the start of competition. Consult <https://www.ready.gov/>.
2. In the event of a human injury requiring medical treatment and/or results in fatality, notification to local authorities and insurance providers must be made immediately. The show should not continue without approval from local/state authorities. In the event of horse fatality or serious injury show management should consult with the vet and follow recommended protocol. Shows must notify ESC of all horse and human fatalities and provide a police report within 24 hours.
3. If an exhibitor is suspected of having a concussion upon evaluation by appropriate medical personnel, they may return to show upon providing a signed release from a licensed physician.

	EquineSportsCouncil.org 1-855-Equine1	Page: 29 of 194 Year: 2025 Version: 6.2
---	--	--

4. A show may restrict a rider/driver from competing if suspected of having a concussion.

SP617 Workouts

1. All horses chosen for a workout must be worked both ways of the ring at each gait asked for by the Judge. This does not have to include all gaits requested during the initial class.
2. Workouts shall be judged as a new and separate class.
3. The horses in the workout may be used by the judge(s) for any or all placings.
4. If an exhibitor recuses himself from the workout for any reason, they may be awarded the last ribbon in the workout. In the case of more than one exhibitor asking to be recused, the fall of the cards will be the placings.

SP618 Possible Violation

If any act committed at, or related to an ESC show which may be deemed prejudicial to the best interest of the ESC, the horse show and/or its participants, including but not limited to the following specific acts:

1. Failing to follow relevant rules for participation.
2. Failing to settle unpaid fines to ESC.
3. Showing or attempting to show while under ESC suspension or for a suspended person who is benefiting from such.
4. Showing or attempting to show a horse that is under suspension.
5. Failing to pay debt owed to a show or facility relative to entry fees, stabling, bedding and/or feed/hay.
6. Acting or permitting participants for whom said person has authority over, to act in a manner which would be deemed unsportsmanlike or unethical.
7. Behavior which would be considered offensive and/or made with the intent to influence or cast aspersions against judge(s) or other officials at a show.
8. Inhumane or cruel treatment of a horse.
9. Failing to observe any penalty imposed by the ESC.

WELFARE & BIOSECURITY

WELFARE & BIOSECURITY

CHAPTER 7 - WELFARE

Equine Sports Council has a zero tolerance policy towards individuals who put the welfare of animals and/or humans at risk. It is against US Federal law for individuals to witness or participate in the activities that comprise the Welfare of Humans or Animals and not report it to government authorities.

Nothing in these rules shall prohibit show management from refusing entries or prohibiting attendance by persons, to the extent that such refusal or prohibition does not conflict with applicable state or federal law.

WL701 Show Safety Reporting & Suspension Policy

1. **Harassment** of any kind is illegal in every state and must be reported immediately by calling 911. State and federal police are the only institutions legally permitted to investigate and convict those who commit these types of crimes. To understand what constitutes harassment or assault review these educational videos: <https://EquineSportsCouncil.org/safe>
2. **Bullying** by individuals or corporations either active, passive or cyber is not tolerated at any ESC event. 46 of the 50 US states have anti-bullying laws. If you are the witness or victim of bullying at an ESC governed show, please notify the Show Commission or ESC at 1-855-Equine1. For confidential help or advice with bullying issues, StompOutBullying.org is the national nonprofit help center.
3. **Animal Cruelty** - Is generally defined as the act of inflicting pain or suffering to a non-human animal and can be done intentionally or by omission. Prohibited treatment of horses at an ESC event is explained in the sections below. Immediately notify any suspected issues to horse show management, and notify authorities by calling 911 if an animal's life is at risk due to unaddressed animal cruelty.
4. **State Sex Offender Registry** - Any person currently listed on any state's sex offender registry is prohibited from attending ESC sanctioned horse shows, whether as a spectator, exhibitor, trainer, coach, groom, or as any other participant.
5. **Criminal Convictions** - Any person who is currently serving a sentence, probation, or on parole for convictions involving violent offenses, sexual offenses, intentional physical harm, animal abuse, or animal cruelty is prohibited from attending ESC sanctioned horse shows, whether as a spectator, exhibitor, trainer, coach, groom, or as any other participant.

	EquineSportsCouncil.org 1-855-Equine1	Page: 31 of 194 Year: 2025 Version: 6.2
---	--	--

6. **Plus 5 Year Suspension** - Any person who, in the past five years, has served a sentence, whether custodial or not, been on probation, or been on parole for convictions involving violent offenses, sexual offenses, intentional physical harm, animal abuse or animal cruelty is prohibited from attending ESC sanctioned horse shows, whether as a spectator, exhibitor, trainer, coach, groom, or as any other participant.

Procedures:

1. Upon report that a participant may be prohibited by any of the foregoing policies, ESC will make reasonable investigation to determine the accuracy of the report.
2. ESC will notify all Show Managers of ESC sanctioned competitions of those prohibited from attendance.
3. ESC does not make any determinations of criminal conduct and relies solely on state and federal court adjudications and government-maintained offender registries.
4. ESC horse shows may continue to refuse entries or ban any person for any or no reason at all. All ESC shows will be asked to mutually adhere to this suspension list and required to honor the USDA Act of Soring disqualifications list.

WL702 Violation of the ESC Drug & Medication Policy

Constitutes risks to animal welfare and may result in loss of ribbons, suspensions and/or fines.

WL703 Cruelty, Abuse or Inhumane Treatment of Horses

Individuals at an ESC exhibition may not abuse or inhumanely treat a horse or pony. Any inhumane actions against a horse or pony may constitute elimination from the show, or other actions deemed appropriate by the show officials and/or ESC upon receipt of reports from the show officials.

WL704 Horse Protection Act

Equine Sports Council strongly encourages all participants to be knowledgeable and follow the guidelines established in the Horse Protection Act of 2025.

<https://equinesportscouncil.org/usda2025regulations/>

WL705 Horse Inspections

The Show Manager, Show Commission and/or Steward may request a veterinarian to inspect any horse on the grounds should there may be signs of lameness, soundness or animal welfare concerns.

Refusing to allow a veterinarian to inspect the horse may be cause for elimination from the show and/or further action deemed appropriate by the Show Commission upon receipt of reports from the show officials.

WL706 Prohibited Practices

Horse shows may ban any person from the show grounds for the following practices, and must be reported to ESC:

1. Use of non-therapeutic agents that cause extreme heat or promote irritation to the epidermis or oral cavities of a horse.
2. Tying a horse in a manner to cause undue discomfort or distress in a stall or trailer.
3. Letting blood from a horse without medical reason to do so.
4. Use of excessive and/or cruel training methods such as: poling or striking horses' legs with objects (i.e. Tack & Apparel poles, jump poles, etc.), striking a horse's head on the poll and forward of the poll except in situations where safety is a concern.
5. Use of any item that materially restricts the movement of the tail resulting in loss of blood circulation.
6. Intentional treatment that causes a horse to bleed.
7. Showing a horse with raw or bleeding sores around the coronets, pasterns or legs.
8. Use of shackles/running-W, hock hobbles or similar devices. Refer to breed/discipline rules regarding the use of stretchers.
9. Excessive spurring or whipping unless an emergency situation warrants.
10. Excessive jerking of reins.
11. Excessive fencing.
12. Excessive spinning as a training technique.
13. Excessive lunging.
14. Exhibiting a horse which appears to be sullen, dull, lethargic, emaciated, drawn or overly tired.
15. Applying excessive pressure on or excessively jerking of a halter lead shank or an allowed lip chain.
16. Signs of recent abuse to a horse's mouth, nose, jaw, or any other area shows signs of broken skin, rawness, or bleeding.
17. Withholding of feed and water for prolonged periods without medical justification for doing so.
18. Intentional soring of any horse to cause pain and/or affect a horse's performance.
19. Inserting or leaving an object in a horse's mouth to cause undue discomfort or distress.
20. Any other treatment or conduct deemed by the Show Commission to be inhumane or abusive

WL707 Equine Biosecurity Guidelines

Local, State or governing officials may have specific recommendations based on current infectious disease trends for a specific area. ESC requires that all equine arrivals on the show grounds have current vet certificates (CVI) and vaccination records available for inspection if requested.. Non-compliance to required certificates are subject to Class 1 violations, and not permitted on the show grounds.

Should local government guidelines not be immediately available, ESC recommends the following American Equine Practitioners biosecurity guidelines which can also be found at

<https://aaep.org/sites/default/files/2022-02/BiosecurityGuidelines%20-%20BOD%20-%20Final.pdf>

ESC requires immediate notification of Show Vet when a horse is exhibiting a temperature greater than 101.5. or diagnosed with a potentially infectious virus. Vet must submit an ESC Medical Report with diagnosis (including isolation instructions) and recommendation to remain on the show grounds.

<https://equinesportscouncil.org/info/>

Routine Biosecurity Protocols

1. Equine entry onto the premises

a. Routine requirements

i. For events or stables, restrict entry to healthy equids only and set policy for refusing entry of equids displaying clinical signs of infectious disease (see Section III.b.iii). Ideally, staff should observe equids upon arrival to confirm animal identification, check health documents and observe equids for general signs of good health. Consideration can be given to the requirement for a recent certificate of veterinary inspection (CVI) and certification by the exhibitor or owner regarding the horse's recent disease exposure history.

ii. New entries to stables where there are long-term resident equids should be isolated from the resident equids for 2-3 weeks and monitored for signs of contagious disease. During this time, equipment should not be shared among new and resident equids, and caretakers should ideally follow protocols described in

Section III. AAEP BIOSECURITY GUIDELINES © Copyright AAEP – Revised 2022

iii. Resident equids returning to their home stable from an event should be fully isolated or at least have their temperatures checked twice daily for at least 1 week to allow early detection of disease.

iv. It is good practice to segregate equids on a facility by use and age. For example, show equids should be segregated from resident broodmares and their foals.

v. Premises may require that equids have documentation of specific vaccinations (See AAEP Vaccination Guidelines for recommendations).

1. For premises with increased public exposure risks, a rabies vaccination requirement is prudent to protect both animal and public health.

	EquineSportsCouncil.org 1-855-Equine1	Page: 34 of 194 Year: 2025 Version: 6.2
---	--	--

vi. Apply animal health standards for other species of animals (e.g., cattle) entering the premises.

1. Recommend housing different species of animals separate from equine populations.

vii. Equids belonging to the same owner or trainer should be housed together with empty stalls between groups of equids if possible.

b. Requirements for entry during local disease outbreak

- i. When an infectious disease outbreak occurs locally, additional restrictions should be applied for animal entry to events or stables.

- ii. Restrict entry to equids for which the owner/agent provides a CVI issued within 7 days of arrival at the event venue. A CVI issued 72 hours before arrival is optimal. If a CVI is not required, then an owner/agent declaration statement attesting that the listed equid(s) arriving at the premises has/have been healthy with no clinical signs of a contagious disease or body temperature(s) above 101.5°F (38.61°C) for the preceding 7 days may be warranted.

- iii. Additional health requirements may be required such as a written statement on the CVI which attests to the equid's health and exposure status. For example, an additional requirement may include a statement that "The listed equid(s) has/have not been on a premises with a confirmed case of neurologic form of EHV-1 in the preceding twenty-one (21) days" if there is a local outbreak of neurologic EHV-1.

c. Facility records should be maintained on equid movements (entering, remaining on, and exiting the premises), location of individual animals, and equid health status procedures (monitoring and treatment records).

2. Equine Health Monitoring

a. Continuous health monitoring of all equids on the premises should be required. This is the key to early identification and containment of infectious disease with minimal disruption.

- i. Options include having designated staff performing periodic walkthroughs of stables to directly observe equids for any clinical signs of disease or relying on self-reporting of disease by exhibitors or owners (the requirement for which should be stipulated in entry forms or boarding agreements). AAEP BIOSECURITY GUIDELINES © Copyright AAEP – Revised 2022

- ii. Any sign of disease should be reported to the designated individual with the authority to initiate immediate disease control measures, such as isolation.

- iii. Requirements at events should include taking equid temperatures twice daily and documenting temperature readings in a log. Consider requiring the posting of a temperature

	EquineSportsCouncil.org 1-855-Equine1	Page: 35 of 194 Year: 2025 Version: 6.2
---	--	--

monitoring log on the stall door which allows designated staff to easily perform checks on temperature recordings. To ensure compliance with the equid temperature monitoring requirement, staff should perform random audits of logs.

iv. Owners of equids at boarding stables should be instructed to report clinical signs of disease in their equid to the facility owner or manager.

CHAPTER 8 - DRUGS & MEDICATIONS POLICY

DM801 Animal Welfare & Equine Drug Testing

The welfare of our show horses is of utmost importance to our industry. It is imperative that the health of the horse comes before any competition. Horse Show Management and ESC have the right to randomly drug test any horse on the show grounds, and may be required if animal welfare is of concern. ESC will provide results of those tests to government authorities where required by law. Notify ESC when animal welfare drug testing is needed by calling 1-855-Equine1

The ESC Medication Administration Guidelines can be found here:

<https://equinesportscouncil.org/rxguidelines/>

The ESC Medical Report Form can be found here:

- 1) BANNED SUBSTANCES** - These medications can significantly alter the natural athletic performance ability of a horse and can change the outcome in the show ring. This group includes potent stimulants or depressants with psychotropic and habitual characteristics such as opioids and amphetamines. Others in this category are medications with a high potential of altering the natural athletic performance ability of a horse. Many of these products alter consciousness or physic state and have no approved or indicated use in a horse. These drugs can stimulate or depress the central nervous system, muscle blocking attributes, analgesic or neuroleptic affects. Anabolic steroids and other commonly used substances in this category have long dissipation times and can remain detectable >90 days. All substances in this category are not permitted for use at any ESC event.

- 2) STRICTLY CONTROLLED** - Approximately 170 substances have been categorized as Strictly Controlled. Recognizing that every horse and medication's efficacy is unique, the prescribing veterinarian may use these medications to treat a horse for a clinical illness or injury and the vet is responsible for determining the appropriate withdrawal period from competition. The industry-standard formula for determining the withdrawal period is the half-life of the drug (as determined by the manufacturer), plus 5 times the half-life amount ($t_{1/2} + 5$). Using this formula, approximately 94-97% of the drug will have been eliminated from the plasma of the horse or pony. Therefore, the efficacy of the medication remaining in the plasma may not be more than 6%.

- 3) GENERALLY CONTROLLED** - Approximately 60 commonly used medications are classified as Generally Controlled. These medications fall into 3 categories of reporting and withdrawal requirements.

A.) Generally Controlled – Use per guidelines with No Medical Report or Withdrawal Time. This category allows for several long-term therapies to continue without a withdrawal from the medication. Horses being treated for cushing’s disease, navicular, certain allergies, arthritis, and hormone therapies will be permitted to remain on their regimen without withdrawal. ESC recommends that an annual prescription be put on file using a single Medication Report. Additionally, in an effort to support horses who may be sensitive to the compounded effect of Bute or Banamine over a 5-day period, ESC is allowing a single dose of either medication 6 hours before competing, provided that no other NSAIDS have been given in the preceding 36 hours.

B). Generally Controlled – 24 Hour Withdrawal & Medical Report filed by the Agent. Included in this category are respiratory medications, antihistamines, corticosteroids and mild sedatives for ship and clip. An agent may submit the Medical Report and administer the medication under authority of the prescribing veterinarian. These medications have a longer efficacy and may be detectable for 7-30 days, therefore require a medication report. These maximum concentration values allowed in plasma are maintained in the Generally Controlled database. 6% is the maximum default value allowed in plasma concentrations unless otherwise noted.

C.) Generally Controlled – 24 Hour or Vet Calculated Half-Life Withdrawal. This group of medications require that a Medical Report be filed by the Agent with a 24 hour Withdrawal. If the horse is being treated for an illness or injury, and a 24 hour withdrawal is not attainable, the prescribing veterinarian may use these medications and the vet is responsible for filing the Medication Report and determining the appropriate withdrawal period from competition. The industry-standard formula for determining the withdrawal period is the half-life of the drug (as determined by the manufacturer), plus 5 times the half-life amount ($t_{1/2} + 5$). Using this formula, approximately 94-97% of the drug will have been eliminated from the plasma of the horse or pony. Therefore, the efficacy of the medication remaining in the plasma may not be more than 6%.

- 4) Shockwave Therapy** administered by or under the direction of a Licensed Veterinarian is permitted. Use in stabling areas is not permitted between the hours of 11pm-6am.
- 5) Delays in Testing** - Any individual that delays >30 minutes, disrupts, impedes or does not cooperate with the drug testing process is assumed guilty of a Severe Infraction offense and may be immediately disqualified. The drug testing vet should report to show management.

- 6) ISO Certified Drug Testing** - ESC partners only with ISO 17025 accredited laboratories that follow strict Chain of Custody protocols for drug sampling, security and shipping.
- 7) ESC Drug Sampling Process** - ESC Contracts with Licensed US Veterinarians with equine treatment experience to perform serum collection at horse shows. Veterinarians are required to utilize ESC's Secured Drug Testing Portal to identify and securely label all plasma collections which are serialized in secured batches and cool shipped to the laboratory for processing. The veterinarian will provide the Agent/Trainer, Owner and/or Steward witnessing the blood draw a witness card and email confirmation.
- 8) Agent/Trainer Responsibilities** - When selected for drug testing, the Agent/Trainer must accompany the Veterinarian or Veterinarian's Escort without delay to a location for drug sampling to occur (or appoint an immediate Proxy). The Agent/Trainer must ensure the horse is held securely and safely while witnessing the sampling and secure labeling of fluid collections. If a witness proxy is not appointed and Agent/Trainer is unable or unwilling, the Show Manager or Steward may perform as the witness. Agent/Trainer/Owner refusing to witness or provide a proxy without delay may be subject to a Medium Infraction offense.
- 9) A & B Sampling** - Three red top 10 mL tubes must be collected from each horse. Two A Samples and One B Sample at 70% full are required. Trainer/Agent may elect to perform the blood draws but must use ESC equipment and the ESC vet must witness and securely label collection tubes and complete Chain of Custody submission.
- 10) Accountability of Agents/Trainers & Owners/Lessee** - Trainers/Agents assume the responsibility under these sanctioning guidelines, unless there is overwhelming evidence to the contrary. The Agents/Trainers are responsible for the submission of ALL medical forms before and during the horse show. It is the Trainer/Agent that must ensure dosing and withdrawal times are correct. The Owner or Lessee may be responsible as the person riding, driving or exhibiting.
- 11) Agents/Trainers & Support Staff** - May include grooms, veterinarians, assistants, family or relatives, contract workers or volunteers that are onsite during a horse show and have made decisions and/or participated in the care of a horse.
- 12) Trainers/Agents** - Is the primary person responsible for the care of the horses entered into the competition through entry forms must be signed by the trainer. Trainers have the overall responsibility for safety, care, feeding, conditioning, health and wellbeing of each horse as so designated on the entry forms. Owners acknowledge that Trainers/Agents represent their horses and understand class entries including scratches are the Trainers/Agents responsibilities.

---	--	--

- 13) Administration of Medication to Horses** - Either the Agent/Trainer or licensed US Veterinarian are the responsible parties for administration of medications for both therapeutic and non-therapeutic use.
- 14) Medical Report Form** - Must be submitted electronically at the time of administration. There are no exceptions to this rule, including but not limited to loss of power, internet or cellular service. Agent/Trainer may submit form , however Controlled Substances require prescription and diagnosis from US Licensed Veterinarian, and must be administered under vet guidance/control. Select therapeutic medications require only one medical report be filed, and that report will be valid for the duration of the show season. **Link to Medical Report form:** <https://equinesportscouncil.org/medreport/>
- 15) Recurring Drug & Medication Violations** - Second offense over a 12 month period receives mandatory 1.5 times penalty infraction. Three (3) or more offenses over a three year period may result in an extended or permanent suspension.

ENFORCEMENT & PENALTIES

ENFORCEMENT & PENALTIES

CHAPTER 9 - RULE ENFORCEMENT

RE901 - Purpose and General Responsibility

1. Each show within ESC's network is committed to providing a competition environment that promotes good sportsmanship, fair competition, and the highest standards of horsemanship. The welfare of the horse and the safety of exhibitors is paramount.
2. Each show shall be responsible for enforcement of the show rules and shall appoint a Show Commission composed of three adults with knowledge of the show rules.
3. The members of the Show Commission shall be designated at least 30 days prior to the date of the horse show and their names shall be published in the show's prize list and/or on the show's website/facebook page.

RE902 – Reporting & Investigating Conduct Violations

1. All violations of these rules other than drug and medication violations shall be considered Conduct Violations. A participant or show official may lodge a complaint alleging a Conduct Violation against an exhibitor, trainer, rider, handler, show official, or groom.
2. Conduct Violations shall be determined by the Show Commission.
3. If a complaint alleging a Conduct Violation is lodged during the show, the Show Commission shall, when practicable, investigate the complaint and make a determination prior to the show's conclusion.
4. If the complaint cannot be fully investigated and determined prior to the show's conclusion, then the Show Commission shall complete its investigation and determination thereafter and shall notify the accused of the determination no later than 15 days following the conclusion of the show. Notification shall be made in writing and sent via electronic mail and regular mail.
5. Any complaint that is not lodged during the horse show shall be made within fifteen (15) days of the show's conclusion and shall be sent via electronic mail and regular mail to Equine Sports Council. ESC shall thereafter convene an investigation, and a determination shall be made no later than thirty (30) days following receipt of the complaint. Notification shall be made in writing and sent via electronic mail and regular mail to the accused and to Show Management.
6. The decision of ESC shall be made in writing and provided to both the accused and to Show Management. In the event that ESC finds that an accused committed a Conduct Violation, they shall offer to the accused in writing an Acceptance of Penalty in accordance with the Table of Penalties set forth herein. The accused may accept or reject the Acceptance of Penalty.

7. If the accused refuses the Acceptance of Penalty, such refusal must be made in writing and provided to ESC via electronic mail and regular mail within five (5) days of the offer of Acceptance of Penalty. The Penalty shall then be implemented unless the accused proceeds with an Administrative Hearing under RE 1105.

3. If an accused refuses the Acceptance of Penalty, such refusal must be made in writing and provided to Show Management and to ESC via electronic mail and regular mail within five (5) days of the offer of Administrative Penalty. The Penalty shall then be implemented unless the accused proceeds with an Administrative Hearing under RE 102.
4. Once the Penalty is implemented, the Accused waives their right to challenge the violation and analyze the plasma B-sample.

RE904 – Administrative Hearings

Administrative hearings shall be conducted by ESC's neutral third party arbitrator.

RE905 – Administrative Hearing Request

To request an Administrative Hearing, the requesting party must submit a \$1000 filing fee and a \$1500 arbitration fee (\$2500 total) payable to ESC within five (5) days of the refusal of the offer of Acceptance of Penalty. Payment must be made here: <https://equinesportscouncil.org/payment/>

RE906 Hearing Location

RE907 Costs of Hearing

The arbitrator shall have the discretion to impose the costs of the hearing on either party or apportion the cost between the parties. The hearing process shall not exceed a total of three (3) hours at a fixed per hour rate of \$500, unless the parties agree otherwise, and the arbitrator approves. Neither party shall be responsible for the opposing party's attorneys' fees under any circumstances, and the arbitrator shall not have the discretion to award attorneys' fees or a party's costs, other than the costs charged by the arbitrator for the hearing.

The Decision by the arbitrator or hearing officer shall be final and binding. By competing in an ESC affiliated competition, all participants including, but not limited to, exhibitors, owners, trainers, riders, and/or handlers waive the right to file a lawsuit in any court to seek review of an Administrative Hearing Decision, and agree to indemnify the Show Management, Show Commission and/or ESC for all attorneys’ fees and costs of defending any such action brought by an exhibitor.

SC – SPORTS CONCEPTS

This section outlines Breed Conformation, Judging and Class Specifications which are Sports Concepts. The sport of showing horses has evolved over hundreds of years by riding and driving discipline enthusiasts dedicated to our sport, and are part of the public domain as captured here for reference. Horse shows may elect to offer awards in the prize lists for events that specify entry qualifications or unique class or judging specifications not found here.

SCI - AMERICAN SADDLEBREED

SC1 Sports Concepts - American Saddlebred

SC1.1 Eligibility & Type

Pure Saddlebred

Known for their high stepping flashy gaits in the show ring, and valued for their versatility and the ability to excel in various disciplines such as saddle seat, hunt seat, western and dressage. Horses in this division must be registered with the American Saddlebred Horse and Breeders Association (ASHBA) or the Canadian Livestock Records Corporation (CLRC) and shown under the registered name and ownership.

Half Saddlebred

Horses in this division must be registered with the American Saddlebred Horse and Breeders Association (ASHBA). Half Saddlebreds are not permitted to compete in Purebred Saddlebred classes. They should exhibit similarities to the Saddlebred parent, including smooth gaits, a willingness to work with people, intelligence, and versatility. There are no specific height or weight requirements. They may also display characteristics of any other breed. An attractive head with wide-set expressive eyes is desirable, along with a flexed neck at the poll and a fine, clean throatlatch. Well-defined withers are also important.

Forelegs should be positioned well beneath the shoulders, while hind legs should align vertically from the buttocks to the back edge of the cannon bone. Hooves should be sound and properly proportioned, with open heels for optimal support, neither turned in nor turned out. Half-Saddlebreds should possess similar characteristics similar to the ASB, but may be of any size and will show characteristics of their other parent.

SC1.2 Saddlebred Show Protocol

Tack & Apparel:

Horses must be presented in traditional Tack & Apparel suitable for the type of class they are entered in. In warm-up areas, leather straps without attachments are allowed as action devices, as well as rubber/elastic devices attached to leather straps. However, chains or rollers as action devices are not allowed. Certain modifications to the horse's appearance are generally permitted, such as discreetly applied hair in the mane or tail, tail braces, and mouth controls. Quarter boots and bell boots are allowed in specific classes. Horses with sight loss in one eye may be shown with an artificial eye or contact lens. During inclement weather, polo boots or bandages may be permitted. Dress requirements may be adjusted in extreme temperatures or weather conditions. Artificial changes of color or markings, other than those to the mane or tail, are prohibited.

Competitors may carry or use a whip not exceeding 6 feet in length, including the lash. Failure to comply may result in disqualification. Whips longer than 6 feet are not allowed in the warm-up area.

Animal Welfare:

Horses must not display any lameness or unsoundness that impairs their performance, or suffer from respiratory issues, or complete blindness in both eyes.

Shoeing:

Pads and wedges are permitted to protect the feet and limbs from the impact of the horse's natural gait and to uphold the integrity of the hoof wall. Similarly, protective hoof bands are allowed to maintain the integrity of the hoof and prevent the loss of a shoe, which could potentially cause hoof trauma. However, exceptions to this regulation apply in the English Country Pleasure, Western, and Hunter Country Pleasure sections.

Tail Presentation:

Horses can be presented with their tails in a natural, unset state in any class without incurring penalties. The surgical release of the ventral sacrocaudal muscle is allowable if performed by a licensed veterinarian. No horse is allowed to participate in the American Saddlebred Division if any chemical or irritant is used to alter the horse's tail carriage.

Judging and Workouts:

Horses are required to be exercised in both directions of the ring, executing all necessary gaits as directed by the judge(s). Workouts will be assessed as a separate class. Judges have the discretion to excuse unruly horses or exhibitors demonstrating inappropriate or unsafe behavior.

Penalties/Elimination:

Penalties may be incurred for a variety of actions and behaviors, including mixed gaits, unbalanced action, labored movement, poor manners, and similar infractions. Horses showing signs of inhumane treatment will be disqualified from the competition.

Maiden/Novice/Limit Classes:

Maiden/Novice/Limit classes are open to horses/riders/drivers who have not achieved one/three/six first place ribbons respectively in any under saddle/driving class of any breed and/or discipline. Participation in any under saddle class contributes to the Maiden/Novice/Limit status of a horse/rider in under saddle classes, but it does not impact the status of a horse/driver in driving classes. Conversely, the status for Maiden/Novice/Limit in driving classes does not affect the status for Maiden/Novice/Limit in under saddle classes. Equitation, Academy, Lead Line, and/or non-cantering classes do not impact the Maiden/Novice/Limit status of a horse or rider. Ribbons won in one-horse classes do not count.

Master Classes:

Classes in this category are designated solely for amateur riders or drivers who are aged 50 years and older. These classes are evaluated based on amateur class criteria and do not include conformation judging, where horses are assessed without Tack & Apparel.

Line Up:

Entries must proceed in a clockwise direction to reach the lineup, as required. Judges are responsible for penalizing entries that do not adhere to this rule. In classes where backing is required, either the judge(s) or ringmaster, acting under the judge's guidance, must lead the lineup.

Stripping:

Refer to the show's prize list for stripping requirements. Horses with excessively low backs face significant penalties in all stripped performance classes. Only two attendants per horse are permitted in the ring. In classes where manners are particularly crucial, such as Ladies, Juvenile Exhibitors, Amateurs, and Owners classes, riders must remount and return to the lineup before judges can submit their evaluations. Stripping at any other ESC Network show is at the show's discretion and should be noted in the prize list.

Restrictions on Attention-Getting Devices and Noisemakers:

Objects such as tape measures, blow horns, bamboo poles, explosives, fire extinguishers, baby powder, and whips exceeding 6 feet in length are strictly forbidden within and around the makeup and competition rings during scheduled competition sessions or at any times specified by Competition Management.

SC1.3 Class Types

TWO-YEAR-OLD, THREE-YEAR-OLD, JUNIOR, LIMIT, MAIDEN, NOVICE, OPEN:

In these classes, animation, brilliance, and extreme action are key attributes sought in horses, showcased in both the front and rear. Evaluation is based on performance, presence, quality, manners, and conformation, with a strong emphasis on performance.

AMATEURS, MASTERS AND OWNERS

Classes in this category prioritize strength, boldness, increased action, and place less emphasis on manners compared to Ladies, Juvenile Exhibitor, or Youth classes. Judging criteria include manners, performance, presence, quality, and conformation.

JUVENILE EXHIBITORS

These classes prioritize horses that are mannerly, agreeable and expressive, displaying brilliance and balanced action. Gait execution should be prompt, while the horse should also demonstrate quiet walking and standing behaviors. Judging criteria include manners, performance, presence, quality, and conformation. In cases where Juvenile Exhibitor classes are unavailable, Juvenile Exhibitors may enter Amateur or Ladies classes unless otherwise stated in the prize list.

LADIES

Classes in this category emphasize refinement, expressiveness, and elegance, with gaits performed with brilliance. Suitability of the horse to the rider is carefully considered. The horse should exhibit quiet walking and standing behaviors. Judging criteria include manners, quality, presence, performance, and conformation.

YOUTH:

Youth classes are judged according to Amateur class specifications and are open to exhibitors aged 16 to 21 years. Stallions are not allowed in these classes.

When Juvenile Exhibitor and Amateur Championships are combined and there is no separate Youth Championship, youth participants will be included in the combined Championship.

If no Youth Championship is available:

- Horses shown by riders aged 17 and under will qualify for the Juvenile Exhibitor Championship.
- Horses shown by riders aged 18 and over, holding an amateur designation, will qualify for the Amateur Championship.
- Horses shown by riders aged 18 and over, without an amateur designation, will qualify for the Open Championship, provided the prize list permits it.

CHAMPIONSHIPS/STAKES

For Qualifying Classes and Championships:

- Management must identify qualifying classes for championships.
- The prize list can outline that only specific classes qualify for particular championships.
- Where applicable, horses must undergo stripping and be judged on conformation, following the stripping rule outlined earlier.
- In stripped, harness, and in-hand classes, horses with extremely low backs must face severe penalties.
- Eligibility for all championships must be consistent across all sections offered within each competition.
- However, competition management reserves the right to limit the number of entries advancing to championships from the qualifying classes.

Nominations:

Nominations for championships can be submitted either on the entry blank or through an alternative document supplied by the show office. Alternatively, horses may not need to be nominated until a designated number of hours before the scheduled class time, as determined by competition management.

Stakes

This class may serve as either a qualifying round for a championship or as a final for a specific section. The prize list must clearly indicate whether exhibitors are required to qualify for participation.

UPHA Classics

See <https://www.uphaonline.com/>

SC1.4 Division of Classes

Classes with more entries than specified must be divided as evenly as possible, with competition management retaining the right to adjust numbers if needed. Division methods may include alternate numbering, horse or rider gender, horse size, or rider age. Any alternative method must be clearly outlined in the prize list. The chosen division method and entries distribution must be communicated via the horse show office, PA system announcement, or program publication. Notification of division intent must be provided to exhibitors at least one hour before the session. In divided classes, prize money doubles, and separate trophies and ribbons are presented. In divided Futurities, only up to 12 entries advance to the final class, scheduled at least two days later, where all prize money is distributed.

SC1.5 Gaits

WALK

Animated Walk: This highly collected gait, is executed at a controlled pace, demonstrating excellent action and animation. It possesses snap and offers easy control, and can manifest as either a two-beat or four-beat gait. Performed with flair, elegance, and a sense of lightness, it showcases style and grace in motion.

Flat Walk: This four-beat gait should be relaxed and ground-covering, while maintaining proper form and a consistent stride. A flat walk should showcase the horse's good manners and attitude.

Hunter Walk: This gait involves four beats, maintaining a straight and flat-footed stride. It is characterized by regularity and freedom of movement, with extension.

TROT

This gait is characterized by a two-beat diagonal movement where the front and opposite hind foot lift off and touch down simultaneously. The balanced trot exhibits straight and precise motion in the front legs, with the hocks flexing and carried close together. It is executed with a high level of collection, showcasing the horse's athletic prowess.

Extended Trot:

The extended trot is executed with increased speed, strength, and boldness, featuring a more pronounced extension of the stride to achieve the desired velocity. This gait is characterized by a high level of collection, maintaining control and balance even at higher speeds.

Gaited Trot:

During the trot, it's essential to demonstrate speed at the maximum rate the horse can sustain while maintaining form, balance and control.

Hunter Trot:

The trot is a straightforward two-beat gait executed at a moderate pace, characterized by a fluid, ground-covering stride. It should exhibit manners, rhythm, and balance, with each step being cadenced and controlled.

Hunter Extended Trot:

A two-beat gait characterized by boldness, energy, balance, and ground coverage, with a noticeable elongation of stride. This elongation should naturally lead to a speed increase without any hint of rushing or frantic movement. Throughout, the horse's mouth should remain light, and it must consistently exhibit complete acceptance of control without any resistance.

Parade Trot:

A collected trot, capped at a maximum speed of five miles per hour, showcases the horse's athleticism and animation.

Park Trot:

The park trot is executed with a high degree of collection, prioritizing animation over speed, with penalties imposed for excessive velocity.

Roadster Jog Trot:

The jog-trot is executed with a significant level of collection, emphasizing animation while penalizing excessive speed.

Roadster Road Gait:

The road gait is executed with a significant level of collection, displaying a heightened level of speed, strength, and boldness compared to the jog-trot. This gait involves extending the stride further to achieve the desired velocity. When prompted to "drive on," the horse is expected to accelerate while maintaining proper form, control, and balance. The ideal speed is the highest pace at which the horse can trot while still upholding these essential elements.

Show Your Horse:

The driver holds the honor of presenting the horse in its optimal form during the trot, with an emphasis on showcasing its best attributes. Excessive speed, however, will result in penalties.

Western Jog Trot:

The jog is designed to minimize saddle motion, necessitating only minimal rider input for control. It embodies a relaxed, easygoing two-beat diagonal gait, maintaining its distinctiveness without blending into other gaits.

CANTER

A deliberate, graceful, and smooth three-beat rhythm characterizes this description. Emphasizing efficiency in movement, achieving optimal action, and maintaining proper form are essential. The pace is controlled, resembling a gentle gallop where two legs on opposite sides of the horse move together while the remaining two operate independently—specifically, the leading foreleg and its corresponding diagonal hind leg. The primary driving force originates from the hindquarters, with the leading foreleg absorbing the impact of the final phase of each beat. During this sequence, there's a fleeting moment where all four hooves are airborne. This gait is versatile, adaptable for both sides of the horse, and performed with a lead that directs toward the center of the arena, aiding in stability and alleviating strain. Determining the lead depends on which foreleg, whether right or left, bears the brunt of the impact during the final phase of the rhythm, following the propulsion initiated by its diagonal hind leg.

In certain classes where manners are less emphasized or where achieving speed at a specific gait is the goal, a more robust and powerful canter from the horse may be acceptable. Control, speed, and collection can be adjusted based on the requirements of the class. However, in situations where manners are of utmost importance, maintaining a deliberate and steady pace is crucial, with minimal visible effort from the rider.

Extended Canter:

Should demonstrate a clear increase in stride length while maintaining control and poise. Excessive speed will result in deductions.

Hand Gallop:

The hand gallop involves a lengthy, unrestrained stride that covers ample ground. Variations in the extent of ground covered may occur among horses due to differences in their natural stride lengths. It should demonstrate a distinct elongation of stride while ensuring the horse maintains control, manners, correctness, and straightness on both leads. It's important to note that the hand gallop is not a swiftly collected canter.

Hunter Canter:

A three beat gait, even, smooth, unhurried, correct and straight on both leads.

Lope:

The lope in Western riding, akin to the canter in English riding, should offer a smooth, enjoyable ride with consistent and steady motion. It should maintain a balanced pace, not excessively slow or fast, and executed proficiently on both leads. The gait should exude comfort and feature a clear three-beat rhythm, avoiding any tendency to trot behind.

SLOW GAIT

The slow gait originated from the pace, evolving into a distinctive four-beat gait where each of the four feet makes individual contact with the ground. During takeoff, the lateral front and hind feet commence almost simultaneously, but the hind foot touches down slightly ahead of its lateral forefoot. This gait is characterized by significant collection, with the majority of propulsion originating from the hindquarters, while the forequarters contribute to the final beats. It's crucial to note that the slow gait is not synonymous with a medium rack. Instead, it is a controlled four-beat gait performed deliberately and precisely, without excessive speed, which incurs penalties. It embodies a lofty, elegant, and restrained style, showcasing the horse's grace and refinement.

RACK

The rack is characterized by a four-beat gait where each foot touches the ground at equal and distinct intervals. It exhibits smoothness and lively animation, performed with notable action and speed, albeit with a slight degree of freedom. The desired speed and collection are gauged by the maximum rate at

	EquineSportsCouncil.org 1-855-Equine1	Page: 54 of 194 Year: 2025 Version: 6.2
---	--	--

which a horse can rack gracefully. Maintaining a well-set head is essential for proper form during racking.

Transitioning effortlessly from the slow gait, all strides in the rack should become equally rapid and regular. Any tendencies towards a trotty, pacey, or hitchy gait are subject to penalties.

In those classes where manners are important, there is more emphasis on an easy way of going with only moderate speed required, such as in Pleasure classes.

CS: CLASS SPECIFICATIONS - AMERICAN SADDLEBRED

CS1.1 Pleasure Division

The American Saddlebred/Half Saddlebred Pleasure Horse should embody quality, style, presence, and suitable conformation, with comfortable gaits that suggest it is a pleasant mount to ride. Desired traits include easy, ground-covering action.

Manners and suitability as a Pleasure mount are of utmost importance. A true, flat walk is emphasized, while laboring action, pulling, tossing the head, going sideways, and tail-switching should be penalized. Show Pleasure is exclusively open to amateur riders and drivers.

Horses competing in other sections within the American Saddlebred/Half American Saddlebred division are ineligible to compete in the American Saddlebred/Half American Saddlebred Pleasure horse section at the same event, with the exception of In-Hand and Parade Horse classes if shown by an amateur.

Cross-entered horses between the Parade and Pleasure sections at the same competition are not allowed to use artificial appliances or devices and must adhere to the pleasure appointment and tails rules while on the competition grounds, before and during competition.

American Saddlebred and Half American Saddlebred Pleasure horses may participate in other divisions or multi-breed classes at the same competition for which they are qualified. Professionals may show the American Saddlebred/Half Saddlebred Pleasure horse in In-Hand, Model, another division, or multi-breed classes, and the horse would still be eligible to compete in Pleasure horse classes at the same competition. Cross-entering between Show Pleasure and Country Pleasure, Three-gaited Pleasure, and Five-Gaited Pleasure at the same competition is prohibited.

Entries must be shown with a full mane and tail. Tails must not be put in any device that alters their carriage while on the competition grounds, except for horses showing in the Show Pleasure division, where tail sets or bustles are permitted. The tail may not be tied or braced, and unset tails will not be penalized.

The use of artificial appliances or devices such as chains, shackles, rubber bands, blinkers (except when driving), or blindfolds is prohibited on the grounds before or during competition. The best quality Saddlebred, according to breed standards should always prevail. Professionals may compete in the Hunter Country Pleasure Prospect or open Hunter Country Pleasure classes, provided two additional Hunter classes restricted to amateurs are available at the same event. For safety considerations, the judge may restrict the number of horses allowed to perform an extended canter simultaneously in any hunter class.

Shoeing: Horses in competition must adhere to specific regulations regarding their shoeing. They are allowed to be either plain shod or unshod. "Plain shod" refers to a shoe, which may include caulks, and may be thicker at the heel. Additionally, toe clips and side clips are permissible, as well as eggbar shoes.

These guidelines ensure fairness and preserve the natural appearance and movement of the horses during competition.

Weanlings and yearlings must exhibit with unset tails; the use of tail sets and bustles on the competition grounds, in preparation for the event, is explicitly prohibited for weanlings. However, bustles are permitted on yearlings.

Any entry found with prohibited equipment will be disqualified, resulting in the forfeiture of all entry fees and winnings for that competition.

Gaits

Entries are evaluated based on the standards for the walk and trot. Each entry enters the ring individually, trotting upon entry. They are judged individually while standing, walking, and trotting on the lead. Horses should stand squarely on all four feet, with the front legs perpendicular to the ground. While the rear legs may be slightly positioned backward, handlers may be requested to adjust the hind legs for inspection if necessary.

Conformation and finish contribute 50% of the total score. All entries are assessed based on the standards for the ideal American Saddlebred/Half American Saddlebred type and conformation. Defects and undesirable traits are to be penalized accordingly. The way of going and natural action also account for 50% of the total score, with severe penalties for any signs of labor.

Standards of Judging

Maintaining a distance of at least ten feet between entries is advised both when circling the ring and during the line-up. The horse should stand squarely with its weight evenly distributed on all four feet, hooves facing forward, and front legs perpendicular to the ground.

Handlers may adjust the horse's position by using the lead rein and applying pressure to the shoulder if necessary. However, using a foot or whip to move the horse's feet will result in penalties. Handlers must position themselves in front of the horse to ensure the judge has a clear view, avoiding obstruction.

Handlers should remain attentive to both the horse and the judge, disregarding distractions outside the ring. The lead rein should be held in the right hand, approximately 12 to 24 inches from the halter or bit, with the other end held neatly in the left hand. Changing hands is permissible for convenience during positioning or presentation.

Handlers should maintain a well-balanced body posture to allow for fluid movement and proper presentation of the horse. When the judge is examining other entries, handlers should position themselves at the horse's head on the opposite side of the judge whenever possible. Promptly following instructions and making mild adjustments to the horse are allowed.

In-Hand Youth Showmanship Workouts

A suitable standard routine for the required individual workout:

The handler should position themselves to the left of the horse and begin leading with a loose rein if feasible, guiding from the left side. In cases where needed, a gentle touch of the whip is permitted.

The horse should move forward briskly and in a straight line. When moving away from the judge, the horse should maintain alignment with the judge for proper observation of its movement.

At each end of the line, the horse should come to a complete stop before turning. Turning should be executed to the right, away from the handler, at the end of the line.

During periods when the judge is assessing other horses, the horse should stand reasonably well-presented. The handler should remain attentive and poised until the entire class has been evaluated and the judge has completed their assessment.

Handlers should adopt a natural approach and refrain from excessive handling, unnecessary fussing, or over maneuvering. They should promptly respond to requests from the judge or other officials, maintaining courtesy and good sportsmanship throughout.

Penalties will be applied for incorrect or unkempt attire, inadequately groomed or trimmed horses, improper or dirty equipment (such as keepers out or twisted cheek pieces), excessive use of whips or reins, interference with other exhibitors, receiving coaching from outside the ring, adopting exaggerated, stiff, or rigid positions, and failing to follow instructions.

Emphasis is placed on manners and suitability of purpose, with suitability referring to the horse's compatibility as a side saddle mount.

CS1.9 Dressage Prospect Division

For the Dressage Prospects division, horses should exhibit the potential to excel as dressage mounts. Horses that have competed at First level Dressage or above are ineligible for this class. Emphasis is placed on form to function.

American Saddlebreds/Half American Saddlebreds suitable for Dressage typically have a higher set-on neck than Hunter types, with adequate length and flexibility of the poll. Movement should be free, elastic, active, and regular, with a good push from behind without tension, and a tendency toward an uphill balance.

The objective is to confirm that the horse's muscles are supple and loose, and that it moves freely forward in a clear, steady rhythm, while accepting contact with the bit. The horse should exhibit lightness of the forehand and engagement of the hindquarters.

Penalties will be applied for resistance and tension in the horse. The horse's potential as a Dressage mount is paramount. Entries must have full mane and tail, with tails not being altered by any devices on the show grounds. Artificial manes are prohibited, but manes and tails may be braided or secured with thread, yarn, or bands. Decorations such as ribbons are not allowed, though inconspicuously applied hair in the tail is permitted.

Professionals may compete in Open classes, and the class is open to stallions, mares, and geldings. However, Juvenile Exhibitors may not show stallions.

Tack & Apparel

Bridles may be either a Dressage or Hunter-type snaffle bridle with a smooth snaffle bit. The noseband options include a regular cavesson, a drop noseband, a flash noseband, or a figure-eight noseband. Not permitted in competition: martingales of any type, draw reins, mouth controls, artificial appliances, boots, and bandages.

Saddles must be either an English Dressage or all-purpose English type saddle. Saddle pads of the Dressage-type are required and should be white or of a conservative color.

Riders are required to wear a traditional short riding coat in a conservative color, with either a tie, choker, or stock tie, or an integrated stand-up collar. Breeches should be white or light-colored, or hunter jodhpurs, along with boots or jodhpur boots. Protective headgear is mandatory. A cutaway coat (modified tailcoat) with short tails is permitted. Gloves in a conservative color are recommended. Half chaps, gaiters, and/or leggings are not permitted.

Spurs must be made of metal and only English-style spurs are allowed. The shank can be either curved or straight, pointing directly back from the center of the spur on the rider's boot. If the shank is curved,

it must be worn with the shank directed downwards, although swan-necked spurs are allowed with the curved shank directed upwards. The inside arm of the spur must be smooth, and one or both arms may have rubber covers. If rowels are used, they must be blunt/smooth and free to rotate. Metal spurs with round hard plastic knobs on the shank are allowed (known as "Impuls" spurs). "Dummy" spurs with no shank are also permitted. The maximum length for spurs is 5.08 inches (2 inches), including rowels. This restriction applies to warm-up and training areas, as well as during competition.

Riders may carry one whip no longer than 47.2 inches (120cm), including the lash, in all classes. An adjustable-length whip is not permitted for mounted riders.

Gaits and Standards of Judging

The walk should have a regular, free, and unconstrained rhythm. The trot should be free, active, and regular, with balanced and elastic steps demonstrating a supple back, suspension, and well-engaged hindquarters. The canter should be light, cadenced, and regular.

Trot work should be ridden rising. Horses are placed based on their innate quality of movement, with all gaits being pure in rhythm, without tension or resistance. Transitions should be balanced and without hesitation.

During the rein-back, the horse should remain calm and obedient, lifting and setting down its feet without shuffling. When lengthening the stride at the walk, trot, or canter, the horse should maintain rhythm, regularity, and balance while reaching with its frame and stride, with the rider maintaining contact with the bit and allowing the lengthening. The strides should cover more ground, while the horse remains calm and supple.

DRESSAGE CLASSES OFFERED

Dressage Suitability

This class is open to horses qualified to compete in various class types, including Open, Amateur, Juvenile Exhibitor, Youth, Junior Horse, Stallions, Geldings, and Mares. Horses are required to perform at the walk, trot, and canter in both directions of the ring. They may be asked to lengthen stride at any gait, with transitions into and out of the canter called for through the trot. Horses will also be asked to reverse direction at the trot. Additionally, a free walk on a long rein with the horse stretching forward and down should be performed in at least one direction. During the lineup, horses should stand quietly and may be asked to back at the judge's discretion.

Judging is based on 70% for the performance of gaits and transitions, with attention to impulsion and submission, using the specified objectives as reference points. The remaining 30% is allocated to the rider's position, seat, and effective use of aids.

In all Ladies, Amateur, Juvenile, and Pleasure classes, the judge(s) must walk the lineup.

Hackney Pony - In-Hand

Open to stallions, mares and geldings of various ages. Show Committees are urged to offer separate classes for stallions, mares, and geldings, two years of age and over.

1. Ponies are shown in-hand at a walk and trot, in both directions of the ring. Conformation, type, quality, and finish account for 50% of the score for weanlings, yearlings, two-year-olds, and older ponies. Performance, manners, disposition, and way of going contribute the remaining 50% for all age groups.
2. Two-year-old stallions and geldings have the option to be shown in stallion Tack & Apparel. Stallions and geldings over two years old must be shown in stallion Tack & Apparel.

Workouts - Hackney Pony - Youth Showmanship In-Hand

The standard procedure for the mandatory individual workout in showmanship classes is as follows:

1. The handler should position themselves to the left of the pony/horse and begin by leading them on a loose rein. If necessary, a gentle use of the whip is allowed. The pony/horse should move forward briskly and in a straight line. When moving away from the judge, they should maintain alignment with the judge for proper observation. At each end of the line, the pony/horse must come to a complete stop before making a right turn away from the handler.
2. While the judge is observing other ponies/horses, it is expected that the pony/horse stands reasonably well-posed. The handler should maintain an alert demeanor and demonstrate good showmanship until the entire class has been evaluated and the judge has submitted their evaluation card.
3. Handlers are advised to act naturally and avoid excessive showing off, fussing or maneuvering. They should promptly respond to any requests from the judge or other officials, while always displaying courtesy and good sportsmanship.
4. There are several actions that may result in penalties including incorrect or unclean attire, poorly groomed or trimmed ponies/horses, incorrect or dirty equipment (such as keepers out or twisted cheek pieces), excessive use of whips or reins, interfering with other exhibitors, overcoaching from outside of the ring, assuming exaggerated, stiff or rigid positions, and failure to follow instructions.

This often includes conservative attire such as dress pants or khakis, a collared shirt or blouse, and closed-toe shoes. Some handlers may opt for more formal attire, particularly in championship or higher-level competitions.

to the ground. Though the rear legs may be slightly back, horses must not appear stretched, as they will also be judged in this state during the class.

10. **Handlers:** Only two handlers are permitted in the ring per horse. Each handler may carry one whip without appendages.
11. **Judging Criteria:** Judges evaluate various aspects of the horse's presentation, including conformation, movement, manners, breed type, and overall presence. SC4.0 Sports Concepts - American Dutch Harness Horse

SC4.1 Breed History

The American Dutch Harness Horse is known throughout the show horse industry for its natural trotting ability, high-stepping motion, and powerful cadence. A warm-blood breed founded in the Netherlands, with the first stud book documented in 1879, the Dutch Harness Horses were known as “Sunday Driving Horses” and were often referred to as the “Tuigpaard” or “carriage horse” across much of Europe. Dutch Harness Horses were introduced to the United States during World War II as fine driving horses. American show horse breeders further refined the Dutch Harness Horses for show ring competition, primarily focusing on bloodlines that consistently delivered high-stepping action.

SC4.2 Breed Registry

The American Dutch Harness Horse Association (ADHHA.org) is a not for profit organization based in Shipshewana, Indiana and serves as the official breed registry in the United States. Their mission is *“To Introduce, Preserve and Enhance the American Dutch Harness Horse through Promotion, Education and Registration.”*

American Dutch Harness Horse Association - Registered vs Recorded Horses

Horses with 50% or more Dutch Harness Horse bloodlines, as determined by pedigree and DNA, qualify for American Dutch Harness Horse Association (ADHHA) **Registration**. Offspring from ADHHA-Registered sires and dams are also eligible for Registration. The ADHHA offers Futurity and competition programs that promote the breed.

Any mare, stallion, or gelding of any pedigree or stud book may be **Recorded** with the ADHHA. Any ADHHA-Recorded horse that goes through the Keurig Exhibition and is selected by the ADHHA is then eligible for Registration. To compete in ADHHA classes, horses must have a Breed Registration Number. Horses from other pedigrees that are only Recorded (not Registered) are not qualified to compete in ADHHA classes.

American Dutch Harness Horse Association - Keuring Exhibition & Approved Breeding Stallions

The ADHHA produces an approved stallion list for its membership and horse registry. All American Dutch Harness Horse stallions must go through a Keuring (Dutch word meaning "excellence") exhibition, where the results determine which stallions are approved by the ADHHA for breeding purposes. Stallions are evaluated by breed experts on conformation, correctness and quality of motion and cadence, as observed between the front and back legs while the horses are shown in-hand. For Keuring Exhibition rules and the list of approved American Dutch Harness stallions, visit: ADHHA.org/stallions/adhha-approved-stallions/.

SC4.3 Competitions

American Dutch Harness Horse Association - National Championship Finals

In order to compete in an American Dutch Harness Horse National Championship Finals Class, horses must be REGISTERED with the American Dutch Harness Horse Association and exhibitors must meet certain membership requirements. Visit ADDHA.org for shows offering ADHHA classes, event locations and dates.

American Dutch Harness Horse - Rules for Show Competitions

In the United States, the American Dutch Harness Horse Association (ADHHA) is the breed's recognized show horse registry. As such, the organization has developed rules for competitions in the areas of 1) Keuring 2) Futurities, which promote ADHHA breeding quality, and 3) National Championship classes, which establish exhibition standards that showcase the natural trotting abilities, motion, and power of the American Dutch Harness Horse. Equine Sports Council (ESC) sanctions horse shows offering classes structured as qualifying classes for the ADHHA National Championship.

SC4.4 Type and Conformation

Horses average 15.2 hands tall and weigh approximately 1,300 to 1,700 pounds. Horses must appear powerful in their motion with high-stepping action in both the front and rear. The highest quality horses carry themselves with an upright neck and well-defined, supportive shoulders. They have large, expressive eyes and forward ears, complemented by an attractive head.

The squareness of the trot, along with the correctness and soundness of the legs and feet, is paramount. At the trot, the quality of suspension is of utmost importance, featuring high-stepping, open flexing front-end motion driven by the powerful propulsion of the hocks. The shoulder should be clean and well laid back onto prominent withers that are higher than the back and croup. The croup should not be too flat, too sloped, or inverted. The body should be proportional to the horse's height and gaskins, and the hindquarters should have a powerful presentation. Legs must be straight, clean, and strong, with well-defined muscular forearms.

SC4.5 American Dutch Harness Horse - General Show Ring Protocol

1. The American Dutch Harness Horses have their trotting motion and the carriage of both the front and rear judged for quality. This in addition to the typical judging standards, which include overall performance, presence, type, manners, conformation, and breed quality. Therefore, only classes that showcase the trotting gaits are offered for the American Dutch Harness Horse, including In-Hand, American Fine Harness, Park Saddle, English Pleasure Saddle, Pleasure Driving, and Roadster to Bike, Wagon or Under Saddle.
2. American Dutch Harness classes may be offered to exhibitors classified as Amateurs, Juveniles, Professionals, or Youth, as defined in the ESC Standards and Guidelines. Horses and exhibitors may be grouped into classes by age, gender, or levels of experience defined as Maiden, Limit, or Novice as outlined in the ESC Standards and Guidelines.
3. Championship Classes - To qualify entries must have been entered, shown and have completed the class within the same division or as specified in the horse show's prize list. Some classes may be combined with others as specified in the class specifications below. Only the Roadster to Saddle class may qualify for another division championship, which is Roadster to Wagon.
4. The American Dutch Harness Horses are encouraged to show with full-length tails in all divisions. Artificial hair or switches may be added to the tail. Horses with full tails shown in Fine Harness, Pleasure Driving, or Roadster to Bike or Wagon should be configured to avoid getting caught in the wheel of the cart. Tails may not be surgically altered, and tails may not be braced or tied.

5. Horses are generally shown in full manes and have either tightly braided mane or a roached mane with bobs. See class specifications for details.
6. White markings of an American Dutch Harness horse should not be hidden or color dyed.
7. Horses that exhibit excessive speed, a labored way of going, or cadence imbalance must be heavily penalized. Dutch Harness Horses should be exhibited with an upright collection through the neck and shoulders.
8. Dutch Harness Horses must also wear their bits peacefully and respectfully in all divisions or be subject to class penalties. Dutch Harness Horses may be exhibited with tongue ties in all divisions that utilize a double bridle.
9. Stallions may not be shown in the Ladies, Juvenile or Pleasure divisions.
10. The Pleasure Saddle and Driving divisions are reserved for Amateur, Juvenile or Youth competitors mounted on mares or geldings.
11. The term “Drive On” is never to be used when referring to the gait at which the American Dutch Harness horses are exhibited at the trot. Instead the term “Show Your Horse” is called for, and the horses are exhibited at the trot at a speed that is most attractive and advantageous for that specific horse. The canter is only called for in Park and Pleasure Saddle classes and it is not extended. It’s only in the Pleasure division that horses must demonstrate a collected flat walk without breaking or be penalized, where other divisions allow for an animated faster moving walk, with minimal or no penalties for breaking.
12. Harness horses must always wear a side check for the full duration of the class unless a workout has been called. Horses not called for the workout may have their checks loosened.
13. Harness, Roadster and Pleasure driving horses must have overchecks configured correctly in the line up. Over checks may be adjusted by a header only in Amateur, Ladies or Juvenile classes.

14. The use of a Header or Attendant with horse handling experience who has reached the minimum age of 15 is required to accompany exhibitors of Amateur, Juvenile, or Youth status in the class lineup for the Pleasure Driving, Fine Harness, and Roadster classes. Attire worn in the show ring by the Header or Attendant must be professional. Headers or Attendants must stand at least 2.5 feet, or two paces, in front of the horse in the lineup. Horses must stand quietly without being held by the Header.
15. American Dutch Harness Horses are only asked to back in the Pleasure Division. Pleasure Division horses must stand quietly in the line up and readily back in a straight line when asked. Horses that do not back must be heavily penalized for not performing all gait requirements.
16. No item may be used to alter the natural ear carriage of the horse.
17. **ESC SC21 Roadster Division** contains Roadster to Bike, Wagon and Under Saddle standard class specifications and safety guidelines which are maintained for the Roadster Divisions in all breeds. However, Class and Judging specifications unique to the American Dutch Harness Roadster divisions are specified in sections below.
18. Junior Horses are four years old and younger. Harness, Pleasure Driving and Roadster to Bike and Wagon horses may begin showing at two years of age. Park Saddle, Pleasure Saddle, and Roadster Under Saddle horses may begin showing at three years of age. Weanlings and Yearlings may begin showing In-Hand with equipment restrictions. Mares do not accompany weanlings into In-Hand classes.
19. **Shoeing Restrictions** - American Dutch Harness Horses in all age groups and divisions are permitted to show with a shoe, pad(s), and/or wedge(s), and should be shod to ensure the support and comfort of the horse. Bands are allowed but must be at least ½” below the coronary band.
20. **Artificial Devices, Action Devices and Protective Equipment** - The use of Artificial Devices (i.e. shackles, chains or full blinders) are not permitted on competition grounds. Half-cup Blinkers are permitted for driving. The use of Protection Equipment is permitted (i.e. shin boots, knee boots, non-weighted bell

CS22.4a The Good Hands National Finals

The Mane Event Horse Show is host to the Good Hands National Finals.

1. The Good Hands Qualifying Classes: For juveniles who have not reached their 18th birthday. To be judged at a walk, trot, and canter. A minimum of two riders are required to individually execute a figure eight at a canter, trot to the judge, stop, and back. Afterward, Traditional Tests 1-15 may be called for. Judging is based 40% on railwork and 60% on individual workout. Only horsemanship counts. Proper Tack & Apparel is required for two competitors to fill a class. A rider must place first or second to qualify for The Good Hands Finals. Winning once eliminates the rider from further competition in this class for the remainder of the qualifying season.
2. The Good Hands Finals: Entries must have placed first or second in an official Good Hands qualifying class at an approved competition and must be properly certified by the competition's secretary. The winner of this championship is not eligible for further participation in this particular event. Open to Juvenile riders who have not reached their 18th birthday.
3. The finals consist of two sections: Preliminaries and the Championship class. The preliminary class(es) also serve as an elimination for the Championship class. In the preliminary, all eligible competitors are judged as a group at the walk, trot, and canter both ways of the ring, and then individually execute the mandatory workout. Judging is based 40% on railwork, 60% on individual workout. Judges select 10-15 contestants to compete in the Championship class.
4. In the final phase, all contestants are judged as a group at the walk, trot, and canter both ways of the ring. All contestants individually execute a prescribed workout. Further testing of any contestants may be requested at the judges' discretion. Judging is based on 40% railwork, 60% individual workout. A rider's performance in the preliminary has equal consideration as the performance in the final phase. In the event a horse becomes incapacitated, upon examination of the competition's veterinarian and a judge or steward, a substitution will be permitted.

SC 25.0 Sports Concepts - Working Ranch

SC 25.1 General

1. In the Working Ranch Division, horses are evaluated based on their performance as conveyances for various ranch tasks. They should exhibit qualities of being pleasant to ride while accomplishing these tasks. It's important to note that a horse cannot participate in both Western Pleasure and Ranch Riding divisions at the same show, regardless of division.
2. In contrast, the Trail Division assesses a horse's suitability for trail riding by gauging their ability to navigate organic obstacles while maintaining a pleasurable riding experience. Unlike the Working Ranch Division, horses in the Trail Division are allowed to cross-enter into the Western Pleasure division if desired.

SC25.2 Working Ranch - Judging Specifications

1. This division is evaluated based on the horse's manners, suitability for ranch riding, and ability to promptly execute commands, showcasing a pleasurable riding experience. Heavy penalties are imposed on horses that exhibit hesitation to commands, excitement, or difficulty in maintaining quietness with the bit. Additionally, horses with tails of excessive length or hindrance in backing due to tail interference are heavily penalized.
2. In terms of appearance, only natural mane, tail, and forelock are permitted. Horses with artificial hair applied to them are disqualified from competition. This ensures fairness and adherence to the natural characteristics of the horse in this division.

SC 25.3 Required Patterns & Railwork

1. In this division, horse and rider are required to execute a pattern that simulates ranch tasks, including changes of gait, gait extensions, crossing at least two logs, and lead changes. The maneuvers should reflect the level of training, relaxation, and quality of movement expected of a ranch-working horse. After completing the pattern, horses are asked to walk, jog, and lope in both directions of the ring before lining up in the center ring. Each horse must back at least five steps in a straight line.
2. Before the session begins, patterns are posted, and riders are expected to adhere to them. Disqualification may occur if riders deviate from the posted pattern. This ensures fairness and consistency in judging.

SC 25.4 Trail Patterns Required

1. In the Trail Division, horse and rider are tasked with navigating a pattern through a series of organic obstacles. The pattern includes at least five obstacles that require the demonstration of various gaits such as walk, jog, and loping on both leads. Additionally, horses must back in a straight line for a minimum of five steps.
2. Specifically, the pattern should incorporate the navigation of at least three cavaletti poles placed flat on the ground, parallel to each other, and spaced at least three feet apart. Optional jumping obstacles may be included, with a maximum height of one foot and no more than one jump per trail course. However, jumps over or into water are not permitted.
3. Before the session begins, trail patterns are posted, and riders are expected to adhere to them. Deviation from the posted pattern may result in disqualification, ensuring consistency and fairness in judging.
